## A Tribute

---

There is one face missing from our Town Meeting this year.

It is that of an old friend to all of us, Irma J. Nickerson. We miss her.

Mrs. Nickerson taught school for fifty years, and many, now grown to womanhood and manhood, were her pupils, and loved her.

She also held many of our town and school offices, bringing to each of them a zeal and interest worthy of our emulation. Up to a very few years ago she was Albany's Tax Collector, and performed with efficiency the duties of that difficult office.

In her personal life Mrs Nickerson was a woman of sterling qualities, well read, and up to the last retaining an active interest in what went on in the world about her. Her keen sense of humor was one of her notable traits and her friends who best knew her, will long remember her infectious chuckle when something amused her.

After the death of her husband, and later, on the death of her only son, Mrs. Nickerson was left alone, and her life was not easy. She faced it with fortitude however, and brought to it a rare dignity that should be an inspiration to us, her friends, who are left behind. It is to be hoped that the proposal of Mr. and Mrs. Weller to name one of their large trees for Mrs. Nickerson will be carried out.

William B. Parker.

## Albany and the Fourth War Loan

---

Albany went over the top in a big way on the Fourth War Loan Drive.

To Mrs. Jessie Lane the credit for this happy result is due. She called on people, telephoned them, wrote to them, and solicited in general with such success, that the bond quota of \$1,500.00, the amount allocated to Albany, was raised even before the drive had ended.

The thanks of the town should be given to her for what she has accomplished.

## Home Food Production

---

Patriotism, prudence, and protection of health combine to urge that in 1944 every family produce and preserve for home consumption as much of the family's yearly food supply as possible. Home food production will assure our own food supply, will release more foods for the armed forces and lend-lease, will help meet the national goals, and will relieve transportation, labor and equipment shortages.

To help families with their plans for food production and preservation at home, the University of New Hampshire Extension Service lists the following free bulletins for your use:

The Home Vegetable Garden	Ext. Circ. 170
Vegetable Storage	Ext. Circ. 140

## Report of the Forest Fire Warden

-----

Crises like the present test the quality and sincerity of everyone's patriotism and citizenship. The times make such unavoidable demands for universal cooperation in the many lines of essential regular and emergency public endeavor that the response given may well be assumed to be the real measure of one's love of country and his appreciation of the opportunities it offers. Ranking high in the list of public endeavor is the protection of our forests from fire. It calls for full and generous cooperation by each of us. Fire statistics indicate that better than 98 per cent of all fires in New Hampshire are man-caused. If human carelessness could be eliminated from the problem, the number of fires would drop to a mere minimum of less than 2 per cent of present figures and fire costs and losses would reduce in proportion. While this goal will not be achieved because of the perversity of human nature, the record can be vastly improved through individual discipline, alertness and cooperation.

Discipline calls for personal restraint from following unrestricted natural impulses to do as one pleases with regard to fire; alertness in cautioning others against imprudent and illegal burning and in promptly reporting fires to the local forest fire warden; cooperation in complying with laws, rules, and regu-

lations governing the kindling and care of fires, smoking, safety of mechanical units using fire in and near woodlands and assisting the local warden in extinguishing such fires as may occur.

The possibilities of disastrous and expensive woods fires are constantly becoming more real. The hurricane felled an estimated one and one-half billion board feet of standing timber, much of which was never cleaned up. To this hazard has been and is being added extensive areas of slash from additional hundreds of millions cut to produce vitally needed wood for the war effort. With the stage so set, greater caution is increasingly necessary. It will pay substantial dividends in unburned forest areas and the saving of unnecessary fire expense.

The year 1943 was an extremely fortunate one because of favorable weather conditions. Many towns had no fires, some had minor fires while a few had expensive ones. The public controls the answer to the 1944 and future year's fire records. If the public is careful and cooperative the record will be good.

Your town warden is, perhaps, more perplexed and anxious during these war years than ever before because of increased forest fire hazards and diminishing supplies of available man-power. He looks directly to you to aid him. Will you? You can aid him most effectively by always securing the required permit before attempting to burn and by complying fully with permit requirements; by being patient when he advises of departmental restriction on permit burning or that he deems it unsafe to burn; and by giving him the needed assistance in extinguishing fires when he needs your help. To do so is to meet one real test of citizenship.

1943 Fire Record — Number of fires, 1; acreage burned, .5; number of fire permits issued, 9.

## Report of Superintendent

-----

*To the School Board and Citizens of Albany:*

The total registration for the current year is 14 pupils. The usual high standard of teaching is being maintained. Under present conditions when it is impossible to secure rural school teachers anywhere at any price, the citizens of Albany are to be congratulated upon being able to keep Mrs. Morrill in this school.

Some of the statistical facts for last year follow: Total registration, 19; days in session, 178; per cent of attendance, 95; cases of tardiness, 6; number transported, 14; visits of superintendent, 13.

Pupils attending Kennett High School from Albany this year are Barbara Covin, Joseph Covin, William Brown.

Respectfully submitted,

JOHN H. FULLER,

February 1, 1944.
